TEMPERAMENT & GENERAL CHARACTER

Libra Ascendant

A Libra Ascendant endows you with a courteous, kind, honest and sensitive disposition and a strong sense of justice. You strive for the beautiful and more refined things of life and you will evade unpleasantness at all costs. Your feelings and affections are strongly developed and are likely to play an important part in your life. You are able to make many friends and associate easily with other people. You have a refined mind with a fondness of beauty and orderliness. A cultivated taste for music, painting and other artistic pursuits is also suggested. Your surroundings influence you very much and you are not happy unless they are elegant and harmonious. You will be less fortunate if you live alone or dissociate yourself from others. Your mind is capable of considerable cultivation especially in connection with the more imaginative and idealistic subjects, but you have more intuition than reason, and emotion and affection mean more to you than cold intellect. You can be rather fickle and changeable, your likes and dislikes vary a good deal, and your ideas change with your moods. Companionship, friendship, partnership, association, and marriage are the keynotes of your nature, and you will not attain your full potential without them. Apathy, lack of perseverance and emotional fragility are the dangers. Occasionally, good music, rest and seclusion are needed to restore your inner equilibrium. Qualities lacking to some degree, which may be found in your partner are will power, daring, assertiveness and courage.
